

General Assembly

Committee Bill No. 5271

January Session, 2015

LCO No. 5125

Referred to Committee on PUBLIC HEALTH

Introduced by: (PH)

AN ACT CONCERNING NEWBORN SCREENING AND A PUBLIC EDUCATION PROGRAM FOR GLOBOID CELL LEUKODYSTROPHY.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

- Section 1. Section 19a-55 of the general statutes is repealed and the following is substituted in lieu thereof (*Effective January 1, 2016*):
- 3 (a) The administrative officer or other person in charge of each 4 institution caring for newborn infants shall cause to have administered to every such infant in its care an HIV-related test, as defined in section 5 6 19a-581, a test for phenylketonuria and other metabolic diseases, 7 hypothyroidism, galactosemia, sickle cell disease, maple syrup urine 8 disease, homocystinuria, biotinidase deficiency, congenital adrenal 9 hyperplasia and such other tests for inborn errors of metabolism as 10 shall be prescribed by the Department of Public Health. The tests shall 11 be administered as soon after birth as is medically appropriate. If the 12 mother has had an HIV-related test pursuant to section 19a-90 or 19a-13 593, the person responsible for testing under this section may omit an 14 HIV-related test. The Commissioner of Public Health shall (1) 15 administer the newborn screening program, (2) direct persons 16 identified through the screening program to appropriate specialty

centers for treatments, consistent with any applicable confidentiality requirements, and (3) set the fees to be charged to institutions to cover all expenses of the comprehensive screening program including testing, tracking and treatment. The fees to be charged pursuant to subdivision (3) of this subsection shall be set at a minimum of fifty-six dollars. The Commissioner of Public Health shall publish a list of all the abnormal conditions for which the department screens newborns under the newborn screening program, which shall include screening for amino acid disorders, organic acid disorders and fatty acid oxidation disorders, including, but not limited to, long-chain 3-hydroxyacyl CoA dehydrogenase (L-CHAD) and medium-chain acyl-CoA dehydrogenase (MCAD).

- (b) In addition to the testing requirements prescribed in subsection (a) of this section, the administrative officer or other person in charge of each institution caring for newborn infants shall cause to have administered to every such infant in its care, [(1)] a screening test for (1) cystic fibrosis, [(2) a screening test for] (2) severe combined immunodeficiency disease, and [(3) on and after January 1, 2013, a screening test for] (3) critical congenital heart disease. Such screening tests shall be administered as soon after birth as is medically appropriate.
- (c) On and after the occurrence of the following: (1) The development and validation of a reliable methodology for screening newborns for adrenoleukodystrophy using dried blood spots and quality assurance testing methodology for such test or the approval of a test for adrenoleukodystrophy using dried blood spots by the federal Food and Drug Administration; and (2) the availability of any necessary reagents for such test, the administrative officer or other person in charge of each institution caring for newborn infants shall cause to have administered to every such infant in its care a test for adrenoleukodystrophy.
- (d) Not later than six months after the date on which the United States Department of Health and Human Services' Discretionary

- 50 Advisory Committee on Heritable Disorders in Newborns and
- 51 <u>Children includes globoid cell leukodystrophy in its uniform screening</u>
- 52 panel, the administrative officer or other person in charge of each
- 53 <u>institution caring for newborn infants shall cause to have administered</u>
- 54 to every such infant in its care, within available appropriations, a test
- 55 <u>for globoid cell leukodystrophy.</u>
- [(d)] (e) The provisions of this section shall not apply to any infant whose parents object to the test or treatment as being in conflict with their religious tenets and practice. The commissioner shall adopt regulations, in accordance with the provisions of chapter 54, to implement the provisions of this section.
- 61 Sec. 2. (NEW) (Effective July 1, 2015) (a) The Commissioner of Public 62 Health shall establish, within available appropriations, a public 63 education program to inform pregnant women and women who may 64 become pregnant concerning: (1) The incidence of globoid cell 65 (2)birth defects caused leukodystrophy; by globoid cell leukodystrophy; (3) methods cell 66 of diagnosing globoid and 67 leukodystrophy; (4) methods of treating globoid cell 68 leukodystrophy. The commissioner shall make such information 69 available to child day care centers and group day care homes, licensed 70 in accordance with section 19a-80 of the general statutes, licensed 71 health care providers who provide services to pregnant women and 72 infants, school nurses and other persons providing health education in 73 schools, and other organizations providing services to children in a 74 group setting.
 - (b) The administrative officer or other person in charge of an institution that administers a newborn screening test for globoid cell leukodystrophy in accordance with section 19a-55 of the general statutes, as amended by this act, shall provide the parent of a newborn information obtained from the Commissioner of Public Health concerning birth defects caused by globoid cell leukodystrophy and available methods of treating globoid cell leukodystrophy.
